GENERAL TERMS & CONDITIONS

- ◆ Any service must be quoted and confirmed by a Service Desk representative for validation and acceptance.
- ◆ Any request for a refund is subject to review and will incur a 5% administrative fee based on the amount received.
- ◆ To obtain the advanced rate, the service must be fully paid at least 15 calendar days before the event setup.
- ◆ Services will be invoiced after the client has made the corresponding payment for the services, without exceptions.
- ◆ Once services have been installed, any relocation will incur an additional charge of 100%.
- ◆ Once the service has been invoiced, any changes, refunds, or cancellations will incur an administrative fee.
- ◆ The invoice will be issued with the details provided here, and no changes or modifications will be made after the document is issued.
- ◆ Expo Guadalajara has different floor load capacities depending on the hall, so all heavy machinery to be displayed must be inspected and approved by the venue.
- ◆ Any equipment or materials exclusively provided by Expo Guadalajara may only be handled by the venue's personnel. Any damages caused must be paid for by the contractor.
- ◆ For the rental of furniture and/or equipment, a liability letter must be signed, and a deposit will be required to cover any potential damages. This deposit will be fully refunded after the equipment or furniture is returned, provided no damages are found.
- ◆ Any service installed without prior authorization or booking from the venue will be subject to review and additional charges.
- ◆ If you require a service not listed in our rate card, please contact a Service Desk representative.
- ◆ Any service contracted on-site will be subject to availability, and the installation time will depend on operational workload.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

ELECTRICAL POWER

- ◆ The venue offers 200w/6500k LED lamps for rent.
- ◆ The rental of our lamps includes labor for installation and electricity consumption (the lamp is not included in the installation service).
- ◆ The use of voltage regulators is recommended, as the venue is not responsible for damages caused by voltage fluctuations.
- ◆ The contracting of electrical power services does not include the electrical materials for the connection (load center and heavy-duty cables, independent of any branch circuits). It is recommended to rent this equipment, which must correspond to the type of consumption contracted.
- ◆ Expo Guadalajara does not install connections to machines (these are the responsibility of the exhibitor and/or the setup team).
- ◆ It is the contractor's responsibility to ensure they have the necessary materials and to make the required connections or derivations from the contracted power supply to the machinery or equipment.
- ◆ In case of renting the material from the venue, the load center will be provided with a thermal-magnetic circuit breaker according to the requested amperage and voltage, and the rental price is per event.
- ◆ If the client does not rent the material from the venue, it will be the client's responsibility to provide it at the time of installation. The material must be in good working condition, and if a risk is detected, the responsible party will be informed, and the equipment will not be connected until the installation is deemed safe. The venue is not responsible if the material provided by the client does not meet the necessary quality specifications or is malfunctioning.
- ◆ The 110-volt power supply is available from 8:00 AM to 10:00 PM. Overnight power must be contracted for each night it is needed. To receive the service, equipment such as refrigerators, freezers, fish tanks, or computers, among others, must not be disconnected.
- ◆ If this overnight power service is not contracted, Expo Guadalajara will not be responsible for any loss or damage to products.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

STRUCTURAL OBJECTS

- ◆ The applicable fee will depend on the object being installed, with tarpaulins charged by size and structures by weight or installation complexity.
- ◆ This service is limited to the Jalisco Hall and some areas of the Mexico Hall (the Special Events hall and the Guadalajara Hall are exempt; In the latter, there is an option for rigging points, which must be confirmed with any Service Desk representative).
- ◆ Special materials for the installation of hangers must be provided by the contractor. In the case of load-bearing connections, these must be installed with 1/4" or larger steel wire and cable clamps, which must also be provided by the contractor.
- ◆ Objects built using Octanorm framing may not be installed.
- ◆ Objects must not exceed the perimeter limits of the stand or affect other exhibitors. The maximum height will depend on the hall and/or organizer.

COMPRESSED AIR

- ◆ The fee will be determined based on the number of cubic feet to be used per day. Please note that the minimum hire is 3 (three) cubic feet per day.
- ◆ Expo Guadalajara will provide 1/4 or 1/2 inch hose service depending on the contracted consumption, with a quick-connect female coupling of 1/4 or 1/2 inch.
- ◆ The exhibitor and/or setup team will be responsible for installing filters for moisture control. Additionally, the service does not include the installation of equipment or additional materials.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

FORKLIFT SERVICE

- ◆ The rental of forklift services will be subject to review depending on the hall. A technical sheet on the machine or specifications of the article and transporting unit will be required.
- ◆ A responsible operator (forklift driver) for the machine, equipment, or load must be present at all times during the forklift service.
- ◆ Forklift operation hours will depend on the waiting list at the time of contracting. Any obstruction of aisles during setup may result in extended delivery times, with no responsibility on the venue.
- ◆ If extra forklift time is required, it must be paid at the time of service. If not, Expo Guadalajara will be unable to continue providing the service.

CABLE DRAGGING THROUGH THE STRUCTURE

- ◆ The service is conditional on the venue's approval. It does not include materials; the cables are the property and responsibility of the exhibitor and/or installer.
- ◆ The service is quoted based on the linear meters from point to point.

WATER AND DRAINAGE SUPPLY

- ◆ This service is subject to availability at any of our halls, and it is advisable to contact a Service Desk representative to arrange for the service.
- ◆ It is the responsibility of the exhibitor to have the necessary materials for this service. If the exhibitor does not have the required materials, Service Desk can rent the materials (subject to availability).
- ◆ If no materials are contracted, the Service Desk representative will provide a detailed list of the materials required.
- ◆ The water service is provided with a ½ inch ball valve, and the drainage service with a 2-inch hose. Expo Guadalajara staff does not perform connections or branches. Any additional connections or branches must be arranged by the contractor.
- ◆ Corrosive, chemical, or hazardous materials may not be disposed of through the drainage service; these must be handled according to their specific disposal requirements.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

FORKLIFT SERVICE

- ◆ The rental of forklift services will be subject to review depending on the hall. A technical sheet on the machine or specifications of the article and transporting unit will be required.
- ◆ A responsible operator (forklift driver) for the machine, equipment, or load must be present at all times during the forklift service.
- ◆ Forklift operation hours will depend on the waiting list at the time of contracting. Any obstruction of aisles during setup may result in extended delivery times, with no responsibility on the venue.
- ◆ If extra forklift time is required, it must be paid at the time of service. If not, Expo Guadalajara will be unable to continue providing the service.

TELEPHONY

- ◆ The installation includes the loan of a phone, which, if lost, must be paid for according to the current purchase price.
- ◆ If you require a phone line for the installation of a point-of-sale terminal, it will be necessary for the bank to configure the POS with the number 9.
- ◆ The venue will not be responsible for any malfunction of the POS terminals, as they are the property of the issuing bank.
- ◆ The rental of a direct line can be used for radio transmissions or, if necessary, to receive calls directly at your booth without going through the switchboard. This service includes all local calls, except for calls to cell phones or long-distance calls.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

INTERNET SERVICES

- ◆ The exhibitor cannot install internet connections through access points, routers, or any devices within the venue. This is Expo Guadalajara's exclusive service generated by the respective SSID for internet navigation.
- ◆ The devices must be able to connect at the frequencies of 2.4 Ghz or 5 Ghz for the wireless network, and the usage is associated with that connection, not to a frequency provided by the net.
- ◆ Asymmetric services provided through optic fiber can operate at asymmetric speeds from 50/5 up to 500/50 Mbps. Symmetric speeds work from 10 to 400 Mbps, depending on the exhibitor's needs. IP for these services will be dynamic. In case the client requires a public IP, it will generate an additional cost.
- ◆ Fiber internet of asymmetric and symmetric services has a capacity for connecting to devices based on our fair usage policy:
 - ◆ The exhibitor can connect several devices simultaneously using an ethernet cable. However, connecting more than one computer or device to the TotalPlay Network will result in a division of speed, depending on the number of connected devices at the same time.
- ◆ In case the client requires to connect several devices with a net cable, it is his responsibility to have the corresponding network infrastructure, such as routers or switches.
- ◆ Dedicated internet is subject to availability, and it must be fully paid before the start of the event set-up. This service is provided through optic fiber and with symmetric speed.
- ◆ Our services do not include complementary setting solutions, such as PBX, Multilines, Video Surveillance Cameras, VPN, Switches, Routers, or any network device.

To contract services, contact us at
modulo@expoguadalajara.mx

SPECIFIC TERMS AND CONDITIONS BY SERVICE

INTERNET SERVICES

- ◆ Wi-Fi service is provided through an SSID key access point.
- ◆ Speed may vary depending on the distance between the user and the access point. Interferences are generated by cell phones and nearby Wi-fi signals. Due to the nature of wireless communications, the load and download speed of the contracted service would not always be reached, because of interferences caused by telephones, walls width, modem location, distance, devices connected, and other exhibitor's Wi-fi connections (The more nearby signals, the stronger is the interference).
- ◆ The Wi-Fi contracting exhibitor must provide a name and a password for the network SSID. The name, up to 14 alphanumeric characters, and the password, up to 8 alphanumeric characters.
- ◆ For high-capacity services (from 500 Mbps up to 1GB) given by optic fiber, Total Play will make speed tests with specialized tools. Wi-Fi services won't be considered for testing.
- ◆ The equipment given for installation must be returned in the same condition as delivered, otherwise penalties will be applied.
- ◆ Wi-Fi service will be provided in the 2.4 and 5 GHz bands, and the connection will only be provided in the designed sector. The bandwidth is guaranteed to the access point and subject to the client's final device.
- ◆ Any request made less than 24 hours in advance is subject to review.
